You must all finish to get any points - It will be the average of the best lap by all team member
It will be the average of the best lap by all team members.

If two teams arrive at the same time then they share the points. IE: two teams arrive at Lille equal 1st. They get 1/2 of the total points for 1st and 2nd - 9 point each.)

For the return crossing, if two cars are on the same ferry crossing, they will count as arriving at the same time. This will avoid a mad rush getting off the ferry, as I can see where that one will end....
